AIR INDIA ARCHIVE

Dear potential donor,

The bombing of Air India Flight 182 over thirty years ago was one of Canada's worst tragedies and must never be forgotten. We are very pleased that Professor Chandrima Chakraborty of McMaster's Department of English and Cultural Studies is leading a project to document this disaster.

As part of her project, Professor Chakraborty is seeking personal memorabilia of families affected by this tragedy for deposit in the McMaster University Library's Division of Archives and Research Collections. I want to ensure you that any such material donated to the Library will be preserved in perpetuity and will constitute lasting evidence of the effects of that terrible event.

Thank you most sincerely for considering the donation of your memorabilia.

If you have any questions about donating material to the Library, please do not hesitate to contact me.

Yours truly,

Rick Stapleton
Archives and Research Collections Librarian
